18 Years of Experience

PROFESSIONAL SUMMARY

DevOps Engineer with experience delivering cloud infrastructure, CI/CD pipelines, container platforms and production automation across Azure and AWS.

I have worked with Azure DevOps, GitHub Actions, Kubernetes, Docker, Terraform, AWS ECS, S3, IAM, CloudFormation, CDK, CloudWatch, Bash and Python in multicultural English-speaking teams.

My background also includes backend development and infrastructure administration, which helps me connect application delivery, operations and cloud reliability. [Calendly](#).

EXPERIENCE

NOVEMBER, 2025 - CURRENT

TechnologyBots

DEVOPS ENGINEER

Independent Contractor focused on internal platforms and cloud infrastructure. I work across Azure, Terraform, AWS networking, ECS, S3, IAM, VPC, Security Groups, Load Balancers, Route 53 and Docker, connecting infrastructure automation with application delivery for TypeScript, PHP, Java and Python services in a fully English-speaking multicultural team.

APRIL, 2024 - NOVEMBER, 2025

INFOSYS - NextEra Energy

DEVOPS ENGINEER

Member of a 4-person DevOps team for the Java-based Phoenix application at NextEra Energy. I managed deployments across Development, QA, Production and Disaster Recovery, coordinated after-hours releases with operational evidence, validated DR readiness and load balancers, and automated database backups to AWS S3 using Python and Bash. Main stack: GitHub Actions, AWS ECS, S3, IAM, CloudFormation, CDK, CloudWatch, Docker, ServiceNow and TypeScript.

APRIL, 2021 - APRIL, 2024

DEVSU LLC - Banco Pichincha

SYSTEMS CONSULTANT

Independent Contractor supporting Banco Pichincha Ecuador with cloud, platform and delivery automation work. I worked with Azure DevOps, Azure Portal, ARM, Terraform, Azure Kubernetes Service, Docker, Azure Repos, Azure Pipelines, Istio, Dynatrace, ApiGee, SQL Server, TypeScript and Java to support CI/CD, infrastructure provisioning, observability and containerized services.

OCTOBER, 2019 - JANUARY, 2020

CANVIA - Sunat

SYSTEMS CONSULTANT

Supported SUNAT services with Kubernetes clusters, Docker and microservice-oriented delivery. The work involved Java services, MongoDB and Google Firebase, giving me practical experience operating application workloads on container platforms.

APRIL, 2018 - OCTOBER, 2019

EVERIS - Banco Sabadell

SYSTEMS CONSULTANT

Supported Banco Sabadell services with CI/CD and application platform responsibilities. I worked with Jenkins, GitBucket, GitLab, Windows Server on Azure, SQL Server, GlassFish, Angular and Java, helping connect source control, builds, deployments and runtime environments.

FEBRUARY, 2020 - APRIL, 2021

QSYSTEM - Auna

SYSTEMS CONSULTANT

Supported Auna services using AWS serverless and enterprise middleware. I worked with AWS Lambda, DynamoDB, Cognito, CloudWatch, CloudFormation, Jenkins, Docker, GitLab, IBM API Connect, Swagger, Zabbix, Oracle DB, TypeScript and Java, combining API delivery, automation and monitoring.

JULY, 2016 - JULY, 2017

SOA PROFESIONALS PERÚ - Entel Perú

SERVERS ADMIN LEAD

Led server administration work for Entel Peru across Unix HP-UX, Linux, Solaris, Oracle Database, SQL Server, MySQL, Red Hat JBoss on AWS, WebLogic, Windows Server, Control-M, F5, Zenoss, DBGlance and Harvest, supporting enterprise operations, middleware platforms and production stability.

JUNE, 2015 - JULY, 2016

HACOM S.A.C.

TECHNICAL LEAD OF IT AREA

Technical Lead of the IT area, responsible for infrastructure and platform operations involving Linux, VMware ESXi, WebLogic, Windows Server, SQL Server, PostgreSQL, GitLab, Zabbix, MikroTik, LXC, Qemu, HAProxy, networking, GPS geolocation, Python and Java.

JANUARY, 2013 - JUNE, 2015

TEAMSOF - Nextel Perú

SYSTEMS CONSULTANT

Supported Nextel Peru / Entel environments with Unix, HP-UX, Linux, Oracle Database, Oracle WebCenter, Oracle WebLogic, Oracle OSB, SVN and Java, covering middleware administration and enterprise application support.

AUGUST, 2012 - JANUARY, 2013

BIZ PARTNER - Aceros Arequipa

SYSTEMS CONSULTANT

Supported Corporacion Aceros Arequipa systems with Oracle Database, Subversion SVN and Java, contributing to enterprise application maintenance and controlled source delivery.

JULY, 2011 - JULY, 2012

INTELYGENZ

SYSTEMS CONSULTANT

Supported multiple Spanish clients using VMware Hypervisor, Linux, SQL Server, SVN and Java, combining application support with infrastructure administration across different customer environments.

JANUARY, 2010 - JUNE, 2011

CHAIN SERVICE TI - Hochschild Mining

SYSTEMS CONSULTANT

Supported several Peruvian clients with Linux, SAP, Tomcat, MySQL, PostgreSQL and Java, building an early foundation in application servers, databases and production operations.
