18 Years of Experience

## PROFESSIONAL SUMMARY

FullStack Developer with experience across backend services, web applications, APIs, databases, frontend integrations and deployment automation.

I have worked with Laravel, PHP, Java, Spring Boot, JavaScript, TypeScript, Angular, Node, SQL databases, MongoDB, Docker and cloud-oriented delivery practices.

My DevOps background is a practical advantage for building applications that can move cleanly from code to production. [Calendly](#).

## EXPERIENCE

**NOVEMBER, 2025 - CURRENT**

**TechnologyBots**

**FULLSTACK / DEVOPS ENGINEER**

Independent Contractor working with internal applications and cloud infrastructure. The role combines TypeScript, PHP, Java and Python application work with Docker, Azure, Terraform and AWS services, which supports fullstack delivery from code to runtime.

**APRIL, 2024 - NOVEMBER, 2025**

**INFOSYS - NextEra Energy**

**APPLICATION DELIVERY ENGINEER**

Supported delivery of the Java-based Phoenix application across Development, QA, Production and Disaster Recovery. The role required application lifecycle understanding, release coordination, automation scripts, Docker, AWS, GitHub Actions, TypeScript, Python and Bash.

**APRIL, 2021 - APRIL, 2024**

**DEVSU LLC - Banco Pichincha**

**FULLSTACK / CLOUD CONSULTANT**

Worked on Banco Pichincha services using Java, TypeScript, SQL Server, ApiGee, Azure DevOps, Docker, AKS, Istio and Dynatrace. This combined backend/API work, application delivery, cloud deployment and operational monitoring.

**OCTOBER, 2019 - JANUARY, 2020**

**CANVIA - Sunat**

**JAVA MICROSERVICES CONSULTANT**

Worked on SUNAT services with Java microservices, MongoDB, Google Firebase, Docker and Kubernetes, covering backend services and cloud-native runtime concerns.

**APRIL, 2018 - OCTOBER, 2019**

**EVERIS - Banco Sabadell**

**JAVA / ANGULAR CONSULTANT**

Worked on Banco Sabadell services using Java, Angular, SQL Server, GlassFish, Jenkins, GitBucket and GitLab, combining frontend, backend, database and deployment tooling.

**FEBRUARY, 2020 - APRIL, 2021**

**QSYSTEM - Auna**

**FULLSTACK / API CONSULTANT**

Supported Auna services with Java, TypeScript, Oracle DB, IBM API Connect, Swagger, JBoss EAP, AWS Lambda, DynamoDB, Cognito, Jenkins, Docker and GitLab, spanning APIs, backend services, cloud components and delivery automation.

**JULY, 2016 - JULY, 2017**

**SOA PROFESIONALS PERÚ - Entel Perú**

**APPLICATION PLATFORM LEAD**

Led server administration while supporting Java, PL/SQL, Oracle Database, WebLogic, Oracle Fusion Middleware, JBoss, SQL Server and MySQL platforms, strengthening production support for enterprise applications.

**JUNE, 2015 - JULY, 2016**

**HACOM S.A.C.**

**TECHNICAL LEAD / APPLICATIONS**

Led the IT area with hands-on work in Java, Python, SQL Server, PostgreSQL, GitLab, WebLogic, Linux, VMware and networking, combining application support, infrastructure and internal platform decisions.

**JANUARY, 2013 - JUNE, 2015**

**TEAMSOFT - Nextel Perú**

**JAVA / ORACLE CONSULTANT**

Supported Java and Oracle-based systems for Nextel Peru / Entel using Oracle Database, WebCenter, WebLogic, Oracle OSB, SVN, Unix and Linux.

**AUGUST, 2012 - JANUARY, 2013**

**BIZ PARTNER - Aceros Arequipa**

**JAVA / ORACLE CONSULTANT**

Supported enterprise systems for Corporacion Aceros Arequipa using Java, Oracle Database and SVN, focused on backend maintenance and database-backed application support.

**JULY, 2011 - JULY, 2012**

**INTELYGENZ**

**JAVA SYSTEMS CONSULTANT**

Supported multiple Spanish clients using Java, SQL Server, SVN, Linux and VMware, working across application support and environment maintenance.

**JANUARY, 2010 - JUNE, 2011**

**CHAIN SERVICE TI - Hochschild Mining**

**JAVA APPLICATION SUPPORT CONSULTANT**

Supported several Peruvian clients using Java, Tomcat, MySQL, PostgreSQL, Linux and SAP-related environments, covering backend servers, databases and production support.
